

Silium+ spectacles clear

Ultra-lightweight PLATINUM-coated safety spectacles with clear lenses. Suitable for prolonged use thanks to ergonomics and light weight. Flat and straight temples make this the ideal model for use also under ear muffs and with work helmets having multi-point webbing and also with for example motorcycle helmets in professional use. Thanks to the thin structure of the temples the noise reduction of ear muffs is not greatly affected and combining different PPE is comfortable.

Protects eyes from UV-rays without affecting colour perception and from low energy mechanical impacts (6 mm 0,86 g iron ball 45 m/s), also in extreme temperatures.

Fog and scratch resistant lenses where the coating significantly surpasses the requirements class N and class K test methods and also provides the performance on both sides of the lenses. Polycarbonate lens optical class 1: Designed for long lasting continuous work.

PLATINUM-coating benefits:

- High resistance to fogging to offer excellent visibility in changing conditions
- High resistance to mechanical abrasion and scratches (1.4 cd/m²)
- Permanently on both sides of lenses
- Wash resistant (cleaning with water & soap -combination or Bollé Safety B-Clean maintenance products)
- Improves work efficiency, safety, reliability and user experience
- Recommended choice for multi-purpose use and hot and moist conditions and in circumstances where is sweating

Frame Marking: EN166 FT CE

Lens Marking: 2C-1.2 1 FT KN

Bollé Safety, founded 1888, is a leading global brand in the PPE eyewear market.
